- Pathophysiology and pharmacology
- Healthcare delivery systems
- Healthcare Data Content and Structure
- Medical law and ethics

- Basic ICD-10 Part 1 (Diagnosis coding)
- Basic ICD-10 Part 2 (Procedure coding)
- Basic CPT Part 1
- Basic CPT Part 2
- Reimbursement methodology
- Professional coding practice

STEP	WHAT DO I NEED TO GET STARTED?
1	**Determine your workforce needs for skilled talent** ☐ Do you have challenges in finding skilled talent? ☐ What particular occupations? ☐ What are your long-term workforce needs? ☐ Determine number of apprentices needed
2	**Identify partners and resources you need (Don't go it alone)** ☐ Identify internal/external stakeholders to participate in the development of the apprenticeship program ☐ Do you want to partner with local workforce agencies? ☐ Are there other critical partners that are needed to be successful? ☐ Will the state Department of Labor (DOL) be involved?
3	**Program Operation & Administration** ☐ Obtain approval for FTE/s within organization (if necessary) ☐ Create apprentice job description/job code ☐ Develop wage progression schedule ☐ Review/sign apprenticeship standards
4	**Apprentice Recruitment** ☐ How will you select individuals to participate in your program? ☐ Do you want your program to serve new entrants and/or up-skill incumbent workers? ☐ Candidate screening ☐ Interview for apprentice positions ☐ Hire and onboard new apprentices
5	**Determine your training model** ☐ AHIMA Foundation will provide access to online instruction ☐ Identify skill/competency requirements ☐ Identify experienced mentors at the job site ☐ Develop an on-the-job learning (OJL) plan
6	**Assess and Continuously Improve** ☐ Conduct regular apprentice OJL evaluations ☐ Complete apprentice experience surveys for each program stage ☐ Assess the program and participants' success moving forward ☐ Evaluate progress and make program corrections as needed ☐ Continuously improve the quality of the program over time
